

I would like to ask that your law not interfere with the law we have here for unwanted phone calls. I cant tell you how much it has changed my life. I was so sick of the phone ringing with idiots and sales people that I even quit answering the phone all together causing me to miss wanted and important phone calls. I was in shock as to how well the new law worked. I went from 5 to 10 unwanted calls a day to 0. I couldnt believe the goverment actually did something that worked! Please leave our law alone!!!!!! THanks. Mike
Martin.....
